DATA SHEET

HUMAN FIBROBLAST GROWTH FACTOR-basic (FGF-b)  
(Recombinant)

Aseptically Lyophilized  
(membrane filtered solution)

Catalog No: BT-108

Lot No:

Quantity: 10ug Protein (10ug sodium phosphate)

Source: E. coli (human recombinant) (1-155)  
(Molecular weight 17,304)

Purity: > 95%, SDS-PAGE

Stability: 6 months, desiccated at -20°C.  
3 months in solution at -20°C.

Biological Activity: ED50 = 0.5ng/ml. Thymidine uptake.  
in Balb-c3T3 cells.

Reconstitution: Use a small volume (approximately 500ul) of sterile buffer containing 1% BSA.

FOR RESEARCH USE ONLY
