DATA SHEET

apolipoprotein A-II, HUMAN (Apo A-II)

Catalog No: J64658 (BT-928)
Quantity: 1mg/vial
Concentration: 1mg/ml (\(E^{1%}_{280nm} = 6.9\))
Packaging: BT Apolipoprotein A-II (Apo A-II) is aseptically packaged (0.22micron filtered) in 1ml aliquots in 10mM Ammonium Bicarbonate at pH7.4.
Preparation: BT Apo A-II is isolated from our Human HDL (BT-914) via delipidation and gel permeation chromatography (Sephacryl S-200 Pharmacia). The resulting Apo A-II (M.W. 17.38kD) is >95% pure on SDS-PAGE.
Storage & Stability: Stable for 6 months @ -20°C or lower at 1 mg/ml. Avoid repeat freeze-thaw cycles. More dilute solutions may precipitate on standing or storage.
Associated Products: BT purifies LDL (J65039 (BT-903)), HDL(J64903 (BT-914)), Apo A-I, OxLDL, AcLDL, and many other lipoprotein products.
