Product Information

Iloprost

Item No. 18215

CAS Registry No.: 78919-13-8

 $6,9\alpha$ -methylene- $11\alpha,15S$ -dihydroxy-16-methyl-Formal Name:

prosta-5E,13E-dien-18-yn-1-oic acid

Synonym: $C_{22}H_{32}O_4$ MF: FW: 360.5 **Purity:**

Stability: ≥1 year at -20°C

Supplied as: A solution in methyl acetate

СООН ÓН

Laboratory Procedures

For long term storage, we suggest that iloprost be stored as supplied at -20°C. It should be stable for at least one year. Iloprost is supplied as a solution in methyl acetate. To change the solvent, simply evaporate the methyl acetate under a gentle stream of nitrogen and immediately add the solvent of choice. Solvents such as ethanol, DMSO, and dimethyl formamide purged with an inert gas can be used. The solubility of iloprost in these solvents is approximately 25 mg/ml.

Further dilutions of the stock solution into aqueous buffers or isotonic saline should be made prior to performing biological experiments. Ensure that the residual amount of organic solvent is insignificant, since organic solvents may have physiological effects at low concentrations. If an organic solvent-free solution of iloprost is needed, it can be prepared by evaporating the methyl acetate and directly dissolving the neat oil in aqueous buffers. The solubility of iloprost in PBS (pH 7.2) is approximately 1 mg/ml. We do not recommend storing the aqueous solution for more than one day.

Iloprost is a second generation structural analog of prostacyclin (PGI) with about ten-fold greater potency than the first generation stable analogs, typified by carbaprostacyclin. I Iloprost binds with equal affinity to the human recombinant IP and EP₁ receptors with a K_i of 11 nM.² Iloprost constricts the isolated guinea pig ilium and fundus circular smooth muscle (an EP₁ receptor preparation) as strongly as prostaglandin E₂ (PGE₂) itself.³

Iloprost inhibits the ADP, thrombin, and collagen-induced aggregation of human platelets with an ED₅₀ value of about 13 nM. In whole animals, iloprost acts as a vasodilator, hypotensive, antidiuretic, and prolongs bleeding time. 4 It has been evaluated in several human clinical studies as a treatment for idiopathic pulmonary hypertension.^{5,6} In these studies, an aerosolized dose of 30 μg/day was effective, and doses as high as 150 μg/day for up to a year were well tolerated.

WARNING: This product is for laboratory research only: not for administration to humans. Not for human or veterinary DIAGNOSTIC OR THERAPEUTIC USE.

MATERIAL SAFETY DATA

This material should be considered hazardous until information to the contrary becomes available. Do not ingest, swallow, or inhale. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. This information contains some, but not all, of the information required for the safe and proper use of this material. Before use, the user must review the complete Material Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Cayman (Chemical Company makes no warranty or guarantee of any kind, whether written or oral, expressed or implied, including without limitation, any warranty of fitness for a particular purpose, suitability and merchantability, which extends beyond the description of the chemicals hereof. Cayman warrants only to the original customer that the material will meet our specifications

at the time of delivery.

Cayman will carry out its delivery obligations with due care and skill. Thus, in no event will Cayman have any obligation or liability, whether in tort (including negligence) or in contract, for any direct, incidental or consequential damages, even if Cayman is informed about their possible existence.

This limitation of liability does not apply in the case of intentional acts or negligence of Cayman, its directors or its employees.

Buyer's exclusive remedy and Cayman's sole liability hereunder shall be limited to a refund of the purchase price, or at Cayman's option, the replacement, at no cost to Buyer, of all material that does not meet our specifications.

Said refund or replacement is conditioned on Buyer giving written notice to Cayman within thirty (30) days after arrival of the material at its destination. Failure of Buyer to give said notice within

thirty (30) days shall constitute a waiver by Buyer of all claims hereunder with respect to said material. For further details, please refer to our Warranty and Limitation of Remedy located on our website and in our catalog.
