

Catalog # 10-1214

Minoxidil

CAS# 38304-91-5

6-Piperidine-1-ylpyrimidine-2,4-diamine 3-oxide

Lot # Z101224

Minoxidil is a direct antihypertensive peripheral vasodilator acting via activation of K_{ATP} channels leading to relaxation of smooth muscle.¹ Active metabolite is Minoxidil sulfate ($IC_{50} = 0.14 \mu M$). Mainly used as a treatment for alopecia because of its observed hair regrowth ability.²

PHYSICAL DATA

Molecular Weight:	209.25
Molecular Formula:	$C_9H_{15}N_5O$
Purity:	>98% by TLC
	NMR: Conforms
Solubility:	DMSO (up to 5 mg/ml); Ethanol (up to 5 mg/mL)
Physical Description:	White solid
Storage and Stability:	Store as supplied at room temperature for up to 2 years from the date of purchase. Protect from exposure to moisture. Solutions in DMSO and ethanol may be stored at $-20^\circ C$ for up to 3 months.

Materials provided by Focus Biomolecules are for laboratory research use only and are not intended for human or veterinary applications.
