Introduction

OVER 20 YEARS OF BUILDING SUCCESS WITH SCIENCE AND COMMITMENT. Since 1994, we have developed and supplied immunological reagents for the IVD industry and research community. Today we provide products for several clinical and research areas, and are proud to be a leading provider of reagents for troponin I immunoassays as well as for certain infectious diseases.

QUALITY - FROM DEVELOPMENT TO DELIVERIES. We are renowned for uncompromised quality that extends from product development to safe and secure deliveries worldwide. Continuous investment in scientific research forms a solid foundation for our product development, and our ISO9001 certified operations ensure that our products live up to the quality you expect.

WORLD CLASS SERVICE. We aim to provide excellent customer service for our industrial and research customers. We have a dedicated Tech Support team that is ready to answer your questions and more information about our products is available on our website. You can also find out more about our product features and the applications that our products are suitable for in our TechNotes.

To serve our customers in China, our subsidiary in Shanghai has operated since 2011. Going forward, we continue to develop and expand our team in Shanghai and improve the operations to bring even better service to our customers.

TOGETHER. TODAY AND TOMORROW. We have a complete understanding of the needs of both our industrial partners and the research community. This is why HyTest is able to help its customers achieve success. And it is why most of the major diagnostic companies rely on HyTest's ability to supply the best reagents in the world.

Introduction 2

Abbreviations used in the Catalog 9

Cardiac Markers 10

Troponin I (TnI)
 Troponin T (TnT)
 Troponin C (TnC)
 Myoglobin
 ProBNP, BNP and NT-proBNP
 Pregnancy-associated plasma protein-A (PAPP-A)
 Insulin-like growth factor binding protein 4 (IGFBP-4)
 Myeloperoxidase (MPO)
 Soluble CD40 ligand (sCD40L)
 Human serum albumin (HSA)
 Cystatin C
 Retinol-binding protein 4 (RBP4)
 Procalcitonin (PCT) and calcitonin
 Glycogen phosphorylase isoenzyme BB (GPBB)
 Fatty acid binding protein (FABP)
 D-dimer and high molecular weight fibrin degradation products
 Serum amyloid A (SAA)
 C-reactive protein (CRP)
 Adiponectin (Adn)
 S100 protein
 Soluble lectin-like oxidized LDL receptor (sLOX-1)

Blood coagulation & Anemia 22

D-dimer
 Erythropoietin
 Ferritin
 Fibrinogen
 Fibrinopeptide A
 Folic acid
 Human serum albumin (HSA)
 Plasminogen
 Thrombin activatable fibrinolysis inhibitor (TAFI)
 Transferrin
 Transferrin receptor

Metabolic Syndrome

24

Adiponectin
 C-peptide, human
 C-peptide, rat
 Ghrelin
 Hemoglobin, human, HbA_{1c}
 Hemoglobin, human, glycated, HbA_{1c}
 Insulin-like growth factor binding protein 1 (IGFBP-1)
 Insulin
 Insulin/Proinsulin, rat-mouse
 Leptin
 Proinsulin, human
 Proinsulin, rat
 Retinol-binding protein 4 (RBP4)
 Soluble lectin-like oxidized LDL receptor (sLOX-1)

Kidney Diseases

26

Cystatin C
 Human serum albumin (HSA)
 Kidney injury molecule-1 (KIM-1)
 Retinol-binding protein 4 (RBP4)

Fertility and Pregnancy

27

Alpha-fetoprotein (AFP)
 Human chorionic gonadotropin (HCG)
 Insulin-like growth factor binding protein 1 (IGFBP-1)
 Mullerian inhibiting substance receptor (MISR)
 Pregnancy-associated plasma protein-A (htPAPP-A and dPAPP-A)

Hormones

28

Calcitonin
 Cortisol
 Dopamine
 Erythropoetin
 Follicle stimulating hormone (FSH)
 17b-estradiol
 Growth hormone (hGH)
 Human chorionic gonadotropin (HCG)
 Insulin-like growth factor binding protein 1 (IGFBP-1)
 Lactoferrin
 Luteinizing hormone (LH)
 Progesterone
 Testosterone
 Thyroid stimulating hormone (TSH)
 Thyroxine (T4)
 Triiodothyronine (T3)

Tumor Markers

30

Alpha-fetoprotein (AFP)
 Angiostatin
 CA-125
 CA15-3
 CA19-9
 Carcinoembryonic antigen (CEA)
 CYFRA21-1
 Erythroblastic leukemia viral oncogene homolog 2 (Erb-2, HER2/neu)
 Human epididymis protein 4 (HE4)
 Human papillomavirus (HPV)
 Insulin-like growth factor binding protein 4 (IGFBP-4)
 Insulin-like growth factor binding protein 5 (IGFBP-5)
 Mucin-1 glycoprotein (MUC1)
 Neuron specific enolase (NSE)
 Non-neuronal enolase (NNE)
 Prostate-specific antigen (PSA)

Neuroscience

32

Calmodulin
 Cu/Zn superoxide dismutase (Cu-Zn-SOD)
 Dopamine
 Glial fibrillary acidic protein (GFAP)
 Heat shock proteins (HSP)
 Myelin basic protein (MBP)
 Neuron specific enolase (NSE)
 Non-neuronal enolase (NNE)
 S100 protein

Gangliosides

33

GM1, GM2, GM3, GM4, GD1a, GD1b, GD2, GD3,
 GQ1b, GT1a, GT1b, GD1a-NAcGal
 Ganglioside GM1 sphinganine
 Globoside

Immunology and Serology

34

IgA, IgE, IgG, IgM
 Kappa and lambda chains
 Myeloperoxidase (MPO)
 Ovine IgG and IgM
 Proteinase-3 (PR3)
 Thyroglobulin
 Thyroid peroxidase (TPO)

Inflammation

36

Calcitonin
 CD2, CD3, CD4, CD5, CD7, CD8, CD10, CD11b, CD16, CD19, CD20,
 CD21, CD22, CD23, CD27, CD45, CD45RA, CD54, CD56, CD71,
 CD72, CD95, CD98, HLA-DR
 C-reactive protein (CRP)
 Epidermal growth factor (EGF)
 Erythropoietin
 Interferons
 Interleukins
 Procalcitonin (PCT)
 Serum amyloid A (SAA)
 Tumor necrosis factor (TNF), alpha

Infectious Diseases

38

Influenza A and B
Mycobacterium tuberculosis
 Other acute respiratory diseases (ARD)
 Adenovirus
 Klebsiella pneumoniae 204
 Newcastle disease virus (NDV)
 Parainfluenza
 Respiratory syncytial virus (RSV)
 Malaria
 Foodborne pathogens
 Adenovirus
 Astrovirus
 Caliciviridae (norovirus)
 Campylobacter jejuni
 Helicobacter pylori
 Listeria monocytogenes
 Rotavirus
 Salmonella
 Epstein-Barr virus (EBV)
 TORCH
 Cytomegalovirus
 Herpes simplex virus
 Rubella virus
 Toxoplasma gondii
 Hepatitis
 Sexually transmitted diseases (STD)
 Candida albicans
 Herpes simplex virus
 Human papillomavirus (HPV)
 Treponema pallidum
Vibrio cholerae

Veterinary

44

Adenovirus
 Astrovirus
Borrelia burgdorferi
 Bovine corona virus
Brucella abortus
Burkholderia mallei and *pseudomallei*
 Calmodulin
 Canine CRP (cCRP)
 Canine distemper virus (CDV)
 Canine parvovirus (CPV)
 Cortisol
 Cystatin C
 Foot-and-mouth disease virus (FMDV)
 GAPDH
 Infectious bronchitis virus (IBV)
 Infectious bursal disease virus (IBDV)
 Influenza A H5, H7 and H9
 Insulin/Proinsulin
 Marek disease virus (MDV)
 Newcastle disease virus (NDV)
 NT-proBNP, canine
 Progesterone
 Proinsulin, rat
 Rabies virus
 Retinol-binding protein 4 (RBP4)
 Rotavirus
 S100
 Serum amyloid A (SAA)
 Thyroglobulin, canine
 Thyroxine (T4)
 Transmissible gastroenteritis (TGE) virus of pigs
 Triiodothyronine (T3)
 Troponin I
 Troponin T

Microbial and Plant Toxins

48

Aflatoxin
 Cholera toxin
Clostridium botulinum
 Diphtheria toxin
E. coli heat labile enterotoxin
 Microcystin-LR
 Ricin
Staphylococcus aureus enterotoxins
 Tetanus toxin

Biodefense

49

Bacillus anthracis
 Ebola virus
Francisella tularensis
 Hemorrhagic fever with renal syndrome (HFRS)
 Marburg virus
 Vaccinia virus
Yersinia pestis

Miscellaneous

50

Chloramphenicol
 Claudin 3 (CLD3)
 Coxsackievirus B3
 Cyclosporin
 Egg white avidin
 Epithelial cell adhesion molecule (EpCAM)
 Fibronectin
 FITC
 FK 560
 Galactosidase- β of *E. coli*
 Glyceraldehyde 3-phosphate dehydrogenase (GAPDH)
 Granulocyte colony stimulating factor (GCSF)
 Guanylate cyclase, human soluble (hsGC)
 His6-tag
 Horseradish peroxidase (HRP)
 Immunoreactive trypsin (IRT)
 Insulin-like growth factor binding protein 4 (IGFBP-4)
 Insulin-like growth factor binding protein 5 (IGFBP-5)
Legionella pneumophila
 MHC class II
 Osteocalcin
 Ovine IgG and IgM
 Proliferating cell nuclear antigen (PCNA)
 Streptavidin from *Streptomyces avidinii*
 Surfeit locus protein-6 (SURF-6)
 Western blot sets

Abbreviations used in the Catalog

a.a.r.	Amino acid residue	LH	Luteinizing hormone
A/C	Affinity chromatography	LPS	Lipopolysaccharide
C/r	Cross-reactivity, cross-reaction	MOMP	Major outer membrane protein
EIA	Enzyme immunoassay	MUC1	Mucin-1 glycoprotein
FC	Flow cytometry	MW	Molecular weight
FITC	Fluorescent isothiocyanate	N/A	Not applicable
FSH	Follicle stimulating hormone	N/cr	No cross-reaction
GhR	Growth hormone Receptor	NS-1	Nonstructural protein 1
HCG	Human chorionic gonadotropin	PHA	Passive haemagglutination
hGH	Human growth hormone	PLA	Plaque-linked assay
HIT	Haemagglutinin inhibition test	proMBP	Proform of eosinophil major basic protein
HK2	Human kallikrein 2	RIA	Radioimmunoassay
HSP	Heat shock protein	SAA	Serum amyloid A
I-C	Troponin I - troponin C -complex	TnC	Troponin C
ID	Immunodiffusion	TnI	Troponin I
IF	Immunofluorescence	TnT	Troponin T
IHC	Immunohistochemistry	TSH	Thyroid stimulating hormone
IL	Interleukin	tTG	Tissue transglutaminase
IP	Immunoprecipitation	VN	Virus neutralization
I-T-C	Troponin I - troponin T - troponin C-complex kDa Kilodalton	WB	Western blotting

POLYCLONAL ANTIBODY

Product name	Cat. #	Host Animal	Remarks
Troponin I cardiac	4T21/2	goat	EIA

HUMAN ANTIGENS

Product name	Cat. #	Purity	Source
Troponin I cardiac, human	8T53	>98%	Human cardiac muscle
Troponin I cardiac, human, recombinant	8RT17	>95%	Recombinant
Troponin I cardiac, dephosphorylated	8T53dp	>95%	Human cardiac muscle
Troponin I cardiac, phosphorylated	8T53ph	>95%	Human cardiac muscle
Troponin complex (I-C)	8IC63	N/A	Human cardiac muscle
Troponin complex (I-T-C), human	8T62	N/A	Human cardiac muscle
Troponin complex (I-T-C), artificial	8T62a	N/A	Human cardiac muscle
Troponin I cardiac Calibrator Set	8T60	N/A	Suggested range from 0 ng/ml to 100 ng/ml
Troponin I cardiac Diversity Kit	K01	N/A	Different forms of human cardiac troponin I
Troponin I skeletal muscle, human	8T25	>95%	Human skeletal muscle

ANIMAL ANTIGENS

Product name	Cat. #	Purity	Source
Troponin I cardiac, bovine	8T53b	>98%	Bovine cardiac muscle
Troponin I cardiac, canine	8T53c	>98%	Canine cardiac muscle
Troponin I cardiac, mouse	8T53m	>98%	Mouse cardiac muscle
Troponin I cardiac, porcine	8T53p	>98%	Porcine cardiac muscle
Troponin I cardiac, rabbit	8T53rb	>98%	Rabbit cardiac muscle
Troponin I cardiac, rat	8T53r	>98%	Rat cardiac muscle
Troponin complex (I-T-C), bovine	8T62b	N/A	Bovine cardiac muscle
Troponin complex (I-T-C), canine	8T62c	N/A	Canine cardiac muscle
Troponin complex (I-T-C), mouse	8T62m	N/A	Mouse cardiac muscle
Troponin complex (I-T-C), porcine	8T62p	N/A	Porcine cardiac muscle
Troponin complex (I-T-C), rabbit	8T62rb	N/A	Rabbit cardiac muscle
Troponin complex (I-T-C), rat	8T62r	N/A	Rat cardiac muscle
Troponin I skeletal muscle, bovine	8T25b	>95%	Bovine skeletal muscle
Troponin I skeletal muscle, canine	8T25c	>95%	Canine skeletal muscle
Troponin I skeletal muscle, mouse	8T25m	>95%	Mouse skeletal muscle
Troponin I skeletal muscle, porcine	8T25p	>95%	Porcine skeletal muscle
Troponin I skeletal muscle, rabbit	8T25rb	>95%	Rabbit skeletal muscle
Troponin I skeletal muscle, rat	8T25r	>95%	Rat skeletal muscle

DEPLETED SERUM

Product name	Cat. #	Source
Troponin I free serum	8TFS	Pooled normal human serum

WESTERN BLOT SET

Product name	Cat. #	Remarks
Cardiac troponin I Western blot set	9CT4	Contains anti-cTnI MAbs 4C2 and human cTnI antigen. For cTnI immunodetection in Western blotting and DOT blot, using cTnI sample as internal standard or calibrator.

Troponin T (TnT)

MONOCLONAL ANTIBODIES

Product name	Cat. #	MAb	Subclass	Remarks
Troponin T cardiac	4T19	9G6	IgG1	EIA, WB, a.a.r. 1-60

WESTERN BLOT SETS

Product name	Cat. #	Remarks
GAPDH Western blot set	9GH5	Contains anti-GAPDH MAb 6C5 with HRP-conjugation and human GAPDH antigen. For GAPDH immunodetection in Western blotting and DOT blot, using GAPDH sample as internal standard or calibrator.
Cardiac troponin I Western blot set	9CT4	Contains anti-cTnI MAb 4C2 and human cTnI antigen. For cTnI immunodetection in Western blotting and DOT blot, using cTnI sample as internal standard or calibrator.

Molecular Biology

Product name	Cat. #
M-MuLV Reverse transcriptase (RNase H minus)	7P8
SmarTaq Polymerase	7S1
<i>Thermus aquaticus</i> DNA Polymerase, Recombinant	7T1
<i>Thermus aquaticus</i> DNA Polymerase, Taq Red	7TR1
<i>Thermus aquaticus</i> DNA Polymerase, Modified	7TM1
<i>Thermus thermophilus</i> DNA Polymerase, Recombinant	7T9

General Terms of Delivery

1. Scope of Application; Definitions

1.1 These General Terms and Conditions shall apply to the sale and purchase of all products delivered by Hytest Ltd, Joukahaisenkatu 6, 20520 Turku Finland, Business Identity Number 0956538-2 ("Hytest") to its clients ("Client"), unless otherwise agreed in writing.

1.2 These General Terms and Conditions shall enter into force on 16 April 2012 and shall be valid until further notice.

2. Ordering, Terms of Delivery and Inspection

2.1 Client shall submit orders by electronic online service, electronic mail, telefax or any other manner to the agreed point of contact. Order means a document or other similar request (in whatever mutually agreed technical form), issued by Client where Client requests Hytest to provide its products. A contract shall be deemed concluded once 1) Hytest has confirmed or otherwise accepted the order issued by the Client or 2) upon the delivery of the products subject to Client's order ("Contract"). Client shall not reschedule or cancel submitted orders.

2.2 The products, as well as prices, specifications, quantities, delivery times and other relevant issues related to the products shall be defined in each Contract. The product shall fulfil the requirements and characteristics set forth in the Contract and comply with the applicable law and regulations issued by authorities.

2.3 Hytest may at its discretion require an advance payment from Client from time to time. Hytest may withhold delivery of the ordered product, if Client is in delay with any payment.

2.4 Unless otherwise agreed in writing, the terms of delivery for the products shall be Ex Works, Turku (Incoterms 2010). All shipments shall be via Federal Express or other similar courier, arranged by Hytest, all charges paid by Client.

2.5 Time of delivery is indicated in the Contract as accurately as possible. However, delivery times are estimates only. Hytest shall promptly inform Client in writing of any expected delay of the delivery, the reasons and effects thereof as well as the estimated new delivery time if possible. Hytest shall not be liable for any loss or damage incurred by Client due to Hytest's failure to meet the delivery times.

2.6 Client shall perform an inspection and quality control of each shipment without delay and latest within fourteen (14) days from the date of the delivery. Client shall without delay inform Hytest in writing of all defects, errors and deficiencies ("Defects") detected in the delivery and shall identify such Defects in sufficient detail.

2.7 Defects, which do not substantially interfere with the use of the product, shall not prevent the acceptance of the delivery.

2.8 The delivery shall be deemed to be accepted, (a) when Hytest has demonstrated that it has corrected all Defects reported by Client in writing which prevented earlier acceptance; or (b) if Client has not presented a written complaint regarding a Defect which prevents acceptance. The criteria mentioned above in this section 2.6 shall not be applied in the acceptance of partial delivery to the extent a Defect in a partial delivery could not have reasonably been noticed prior to the acceptance testing of a later delivered partial delivery.

2.9 Where any valid claim with respect to any of the Contract products based on any Defect in the quality or condition of the Contract products or their failure to meet specification is notified to Hytest in accordance with these General Terms and Conditions, Hytest shall be entitled to replace the defective Contract products (or the part in question) free of charge or at Hytest's sole discretion, refund to the Client the price of the defective Contract products, but the Supplier shall have no further liability to the Client.

2.10 This section 2 states the entire liability and obligations of Hytest

and the sole and exclusive remedy of Client with respect to any alleged or actual Defect in the delivery.

3. Title, Risk of Loss and Intellectual Property Rights

3.1 The title to the acquired product shall pass to Client upon payment of the purchase price in full to Hytest's designated bank account.

3.2 All risk of loss or damage to the product shall pass to Client in accordance with the terms of delivery specified in section 2.4.

3.3 Hytest (or its licensors) shall own all rights in and to the products, including any copyright, patent, trademark, design right, trade secret and any other intellectual property rights whether or not capable of registration. For the sake of safeguarding the product safety of the products, Client shall not modify, alter, translate, reverse engineer, decompile, disassemble or attempt to discover the scientific structure of the products, or use the product in an application or environment for which it was not intended or not contemplated to, unless otherwise authorized by Hytest in writing.

4. Prices; Terms of Payment

4.1 If the price of a product has not been agreed in the Contract, Hytest's price list effective at the date of order shall apply. The prices are in Euros, unless otherwise agreed by the parties in writing.

4.2 The prices specified in the accepted order are net prices. Value added tax, any taxes, duty of any kind, export/import costs and other levies or delivery costs are not included in the prices and shall be charged separately. If the amount of value added tax or other public charges determined by the authorities or their collection basis change due to changes in regulations or taxation practice, the prices of the products shall be revised correspondingly.

4.3 Hytest shall invoice for the products upon delivery. The terms of payment are thirty (30) days net from the date the invoice was sent. Interest on delayed payments shall be charged at sixteen (16) per cent per annum. Each invoice will be deemed accepted within seven (7) days after the invoice date, unless Client has advised Hytest in writing by such date of any errors in respect of the relevant invoice.

5. Substituting Products

5.1 Hytest may without the consent of Client replace the product specified in the Contract by other product. Such substituting product shall meet the functional features, specifications and other requirements of the original product set forth in the Contract

6. Infringement of Intellectual Property Rights

6.1 Hytest shall, at its own expense defend the Client against proceedings presented against the Client that a product infringes third party intellectual property rights in the agreed country of delivery or use provided that the Client promptly notifies Hytest in writing of such presented claims and permits Hytest to defend or settle the claims on behalf to the Client and gives to Hytest, at the request of Hytest, all necessary information and assistance available and the necessary authorisations. Hytest shall pay all damages finally awarded in a trial or agreed to be paid to a third party if the Client has acted in accordance with the foregoing.

6.2 Hytest shall, however, not be liable if the claim (a) is asserted by a company, which exercises control over Client or which is controlled by Client in the way control is defined in the Accounting Act; (b) results from alteration of the product by Client or from compliance

General Terms of Delivery

with Client's instructions; (c) results from the use of the product in combination with any product not supplied by Hytest or (d) could have been avoided by the use of a released and equivalent product offered for use by Hytest without separate charge.

6.3 Hytest disclaims any representations or warranties on the use of Contract product in conjunction with any application or product of the Client, nor accepts any liability where such use of the Contract product or performance of the application infringes, may infringe or is alleged to infringe patents or other intellectual property rights of any third parties. Purchase of the Contract product does not include any license to perform any application of the Client or any third party in any country.

6.4 This section 6 states the entire liability and obligations of Hytest and the sole and exclusive remedy of Client and its customers with respect to any alleged or actual infringement of intellectual property right(s).

7. Confidentiality

7.1 Each party shall keep in confidence all material and information received from the other party and marked as confidential or which should be understood to be confidential, and may not use such material or information for any other purposes than those set forth in the agreement. The confidentiality obligation shall, however, not be applied to material and information, (a) which is generally available or otherwise public; (b) which the party has received from a third party without any obligation of confidentiality; (c) which was in the possession of the receiving party prior to receipt of the same from the other party without any obligation of confidentiality related thereto; or (d) which a party has independently developed without using material or information received from the other party.

7.2 Each party shall promptly cease using confidential material and information received from the other party and, unless the parties separately agree on destruction of such material, return the material in question (including all copies thereof), when the agreement has terminated or when the party no longer needs the material or information in question for the purpose stated in the agreement. Each party shall, however, be entitled to retain the copies required by law or regulations.

7.3 The rights and responsibilities under this section 7 shall survive the termination or cancellation of the agreement.

8. Force Majeure

8.1 Neither party shall be liable for delays and damages caused by an impediment beyond his control, which he could not have reasonably taken into account at the time of the conclusion of the agreement, and whose consequences he could not reasonably have avoided or overcome. Strike, lockout, boycott and other industrial action shall constitute a force majeure event also when the party concerned is the target or a party to such an action.

8.2 A force majeure event suffered by a subcontractor of a party shall also discharge such party from liability, if subcontracting from other source cannot be made without unreasonable costs or significant loss of time.

8.3 Either party shall without delay inform the other party of a force majeure event in writing. The party shall correspondingly inform the other party of the termination of the force majeure event.

9. Product Liability

9.1 Client shall use the product literature and the technical and scientific documentation which Hytest delivers to Client. Hytest shall indemnify and hold Client harmless against damages finally awarded in actions against Client and instituted by third parties under the

applicable product liability legislation in force designated country to the extent such awarded damages concern liability for defective products or negligence of Hytest in respect of damage to private property other than product or death or personal injury and which awarded damages have arisen from a defect subsisting in a product at the time of its delivery to Client.

9.2 This section 9 states the entire liability and obligations of Hytest and the sole and exclusive remedy of Client and its customers for any product liability claims.

10. Disclaimer of Warranties

10.1 To the fullest extent permitted by applicable law, Hytest disclaims all promises, representations and warranties with respect to Contract product, including without limitation implied warranties of merchantability, satisfactory quality and fitness for a particular purpose, even if Hytest has been advised of the possibility of such damages.

11. Damages; Limitations of Liability

11.1 Hytest's liability based on the delivery of the products subject to these terms and conditions for direct expenses and damages caused by breach of Contract shall not exceed fifteen (15) per cent of the price of the products which are the subject matter of the claim.

11.2 Neither Party shall be liable to the other Party for any indirect, incidental, special, punitive or consequential loss or damage, including but not limited to loss of profits or revenue, loss of use, loss of customership, loss of goodwill, cost of capital or investment, damage caused due to decrease or interruption in production or turnover whether arising under these terms and conditions, tort, or any other theory of liability, or otherwise.

11.3 The limitations of liability shall not apply to damages caused by wilful conduct or gross negligence or breach of confidentiality provisions in section 7.

12. Applicable Law; Settlement of Disputes

12.1 This agreement shall be governed by the laws of Finland. The United Nations Convention on Contracts for the International Sale of Goods done at Vienna April 11, 1980 is excluded.

12.2 In the event of any controversy, claim, or dispute arising out of or relation to any provisions of these general terms, the parties shall try to settle those conflicts amicably between themselves within ninety (90) days of either party's request for amicable settlement negotiations. Should the parties fail to reach a settlement, the matter in dispute shall be finally and exclusively settled by arbitration under the Rules of the Arbitration board of the Finnish Central Chamber of Commerce. The Arbitral tribunal shall be composed of a sole arbitrator and the place of arbitration shall be Turku, Finland. The language to be used in arbitral proceedings shall be English.

12.3 The parties have nevertheless right to claim for outstanding receivables under these terms and conditions at the district court of Hytest's domicile.
