

< Example of DNA extraction >

< Kaneka Easy DNA Extraction Kit version 2* >

- Simple protocol
- 10 minute extraction

*This product is for research use only.

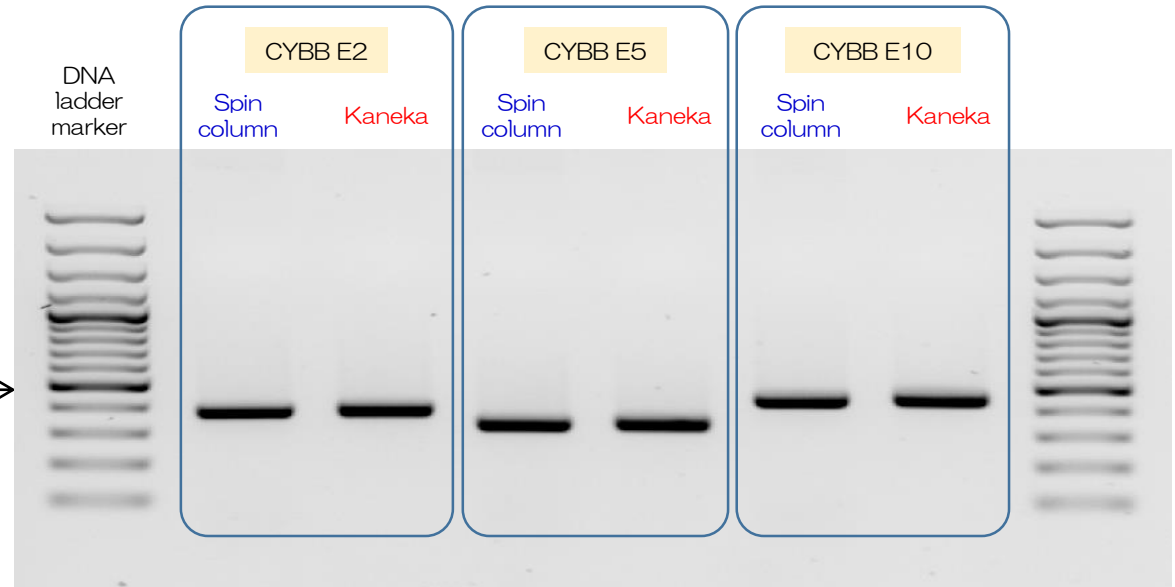

< Performance comparison with a spin column DNA purification kit >

Extract DNA from HEK293 cells by using Kaneka Easy DNA Extraction Kit version 2* following PCR.

Target sequence: endogenous gene (CYBB E2, E5, E10)

Electrophoresis for Confirming DNA amplification

Kaneka DNA Easy Extraction Kit version 2 successfully extracted DNA from HEK293 cells..
