

The Peak of Pipetting

New! 300 μ L XL Multi-Volume Pipette Tip

- 2-300 μ L—non-filtered volume range
- 2-200 μ L—filtered volume range

One tip does it all!

- Graduations at 10, 50, 100, 150 and 200 μ L—eliminate the need to keep multiple tips in your inventory.
- Universal fit for broad compatibility with most major pipettor brands.
- Filter placement is optimized to accommodate 20 μ L, 100 μ L, and 200 μ L pipettors; non-filtered tips are also compatible with 300 μ L pipettors.

Complete sample recovery!

- 91 mm (3.58 in) in length—easily reach the bottom of 12 x 75 mm tubes without risk of the pipettor nose cone touching the interior of the tube.
- Manufactured from virgin polypropylene to ensure purity and provide excellent optical clarity.
- Vertex NoStick® resin technology creates a low-binding surface for maximum sample recovery.
- Certified free of DNase, RNase, DNA and PCR inhibitors.
- Sterile product is also pyrogen-free.
- Available in standard 8 x 12 SBS-format rack.
- Patented press-to-open hinged lid enables easy, one-hand operation.
